THE BENEFITS OF NOW TECHNOLOGY

PROVING BAKED
GOODS TO YOUR
CUSTOMERS IN
HIGH QUALITY
SUSTAINABLE
PACKAGING CAN
BE A CHALLENGE.

**POLICARTA/AFC
PACKAGING CAN
HELP YOU MEET
THAT GOAL.**

Words like sustainable, compostable and recyclable are often overused and abused leaving customers and producers confused about the real impact of the end of life of their packaging and its true environmental impact.

NOW is the solution that combines safety, efficiency, quality and sustainability. Certified by Sistema Aticelca and Western Michigan University.

NOW allows you to pack fresh products in packaging of fully recyclable paper that is entirely customizable, performs on flow-pack machines, optimizes

packaging timing without altering costs, and improves the shelf life of your food.

For more information download the third-party research and certificates from www.showthecertificate.com

Choose NOW. Your products, your customers, and the environment will thank you.
